

Catch the Biggest and Most Bass in Any Lake

If you were having open-heart surgery at the hospital, youd want the best doctor with the most experience and the latest equipment and techniques that money could buy to do your operation. Youd study these doctors credentials to learn who was the best. This is the same type of research that author John E. Phillips has done with the best bass fishermen in the nation to solve the problem of how to find and catch the biggest and the most bass in any body of water that he fishes. In this book, youll read about the techniques, tips, baits, lures and tackle that 18 of the nations best professional fishermen use to support their families by winning bass tournaments and catching the most and the biggest bass they can in every tournament they fish. Most of these anglers are Bassmaster Classic winners, Megabucks winners, Angler-of-the-Year and FLW Tour winners like Rick Clunn, Kevin VanDam, George Cochran, Mark Davis, Paul Elias, Skeet Reese, Larry Nixon, Hank Parker, Ken Cook, Denny Brauer, Alton Jones and Jay Yelas. Also every serious bass fisherman should know Timmy Horton, Mark Rose, Randy Dearman, Harold Allen, Mike Wurm and Shaw Grigsby, men whose tactics youll find in this book. The book also contains two videos with Kevin VanDam on the importance of color and when to use silence as a tactic to catch more bass. To learn how to fish for bass and change your bass-fishing trips from fishing trips to catching trips, this book is a must-have.
