

China 3.0 (ECFR policy report Book 66)

China is not only changing leaders; it is also moving into the next phase of its development. This unique collection of essays written by Chinas most prominent thinkers provides an unrivalled insight into the big debates that are taking place about the future of Chinas growth model, its political system and its foreign policy. They suggest that China could be on the verge of a change as significant as Mao Zedongs Communist revolution (China 1.0) and Deng Xiaopings market revolution (China 2.0). We call this China 3.0.
