

Another Day At The Front: Dispatches From The Race War

African Americans have been at war with some elements of the white population from the very beginning. In this collection of essays, his first since *Airing Dirty Laundry* in 1993, Reed explores the many forms that this homefront war has taken. His brilliant social criticism feints deftly among past and present, government and media, personal and political. From the author whose essay style has been compared to the punching power of boxers Mike Tyson and Muhammad Ali, this book is a series of fast, powerful strikes against America's long tradition of racism.
