At the online REA Study

Center, you can access three types of assessment: topic-level quizzes, mini-tests, and a full-length practice test. Each of these tools provides true-to-format questions and delivers a detailed score report that follows the topics set by the College Board.

Topic Level Quizzes: Short, 15-minute quizzes are available throughout the review and test your immediate understanding of the topics just covered.

Mini-Tests: Two online mini-tests cover what you've studied in each half of the book. These tests are like the actual AP Psychology exam, only shorter, and will help you evaluate your overall understanding of the subject.

Full-Length Practice Test: After you've finished reviewing the book, take our full-length practice exam to practice under test-day conditions. Available both in this book and online, this test gives you the most complete picture of your strengths and weaknesses. We strongly recommend that you take the online version of the exam for the added benefits of timed testing, automatic scoring, and a detailed score report.

Improving Your Score with e-Flashcards: With your score reports from the quizzes and tests, you'll be able to see exactly which AP Psychology topics you need to review. Use this information to create your own flashcards for the areas where you are weak. And, because you will create these flashcards through the REA Study Center, you can access them from any computer or smartphone.
