A Fairys Guide to Disaster Tiny fairies. Huge adventure. Matilda Whipplethorn is about to get what shes always wanted, and its a bad thing. Being a babysitter isnt much of a dream for the average thirteen-year-old, but Matilda is anything but average. Shes half a centimeter tall, invisible to the human eye, and hearing-impaired. Her mother wont let her forget any of that. So for Matilda, adventures are in short supply. Finally agreeing to let Matilda take some responsibility, her mother gives her a list of emergency procedures for babysitting. The only problem; humans arent on the list. Fierce Creatures Another day. Another disaster. After surviving a kidnapping and battling with spriggans, Matilda Whipplethorn finds her life in a suburban human house pretty boring. Shes been excluded from school because of her fire-making abilities and her former friends are afraid of her. Salvation comes in the form of a life-threatening illness. Her tutor, Miss Penrose, needs a medication and theres only one place to get it, the spriggans. Matilda heads back to the antique mall to save Miss Penrose even though it just might cost her everything. A Monsters Paradise Paris isnt for lovers. Its for fighters. Matilda Whipplethorn thought her mission would be simple. Shed get the cure for Miss Penrose and get out, but nothing is simple in Paris. The fairy revolution is heating up, not cooling down as the Whipplethorns were told. Navigating the city comes with unexpected dangers, blood-thirsty rebels, tyrannical royalists, and monsters of all kinds. The Vermillion clan holds the cure and theyre in hiding. Every time Matilda asks a Parisian fairy about the Vermillion, she becomes their enemy in a city that is now all enemies and

no allies. Now time is running out, and Miss Penrose is fading fast. If Matilda doesn't find the Vermillion, all the trouble will be for nothing.
