

Introduction to Personal Computers, Windows 7 Edition [With CDROM] (ILT)

This course is for students who have little or no experience with personal computers and who want to learn the basics. Students will learn about the main components of a typical computer system and the basic elements of the Windows 7 interface. Students will learn how to navigate in Windows Explorer, organize files and folders, search for items on their computers, and personalize Windows. Students will also learn how to browse the Web with Internet Explorer 8 and how to protect their computers from malware.
