

Buffy and the Heroines Journey: Vampire Slayer as Feminine Chosen One

The worlds of Percy Jackson, Harry Potter, and other modern epics feature the Chosen One--an adolescent boy who defeats the Dark Lord and battles the sorrows of the world. Televisions Buffy the Vampire Slayer represents a different kind of epic--the heroines journey, not the heros. This provocative study explores how Buffy blends 1990s girl power and the path of the warrior woman with the oldest of mythic traditions. It chronicles her descent into death and subsequent return like the great goddesses of antiquity. As she sacrifices her life for the helpless, Buffy experiences the classic heroines quest, ascending to protector and queen in this timeless metaphor for growing into adulthood.
