

Cat Jump (Interactive Puzzle for Kindle)

Your purchase of this title directly helps a cancer survivor pay for medical bills. Thank you for your support from the bottom of our hearts. If you like our titles, please click my name or search K. Lenart in the Kindle store as we now have more than 12 available and are adding new ones frequently. Note: In response to the reviewers question of how to move the cats. You dont click on the cats themselves. You select the links at the top of the playing board that say #_to_#. The first number is the cat to move and the second number if the space where youd like to move it. All legal cat moved are represented. This was answered in a comment on the review but I thought Id better post it here too for everyones sake. Description: Cat Jump is a fun and simple game. The object is to clear all but one cat from the playfield by jumping over them to a blank spot on the board (like checkers). I modeled this after the popular golf-tee type peg games that can be found in many honestyle food restaurants. The playfield starts completely full of cats except for one blank spot. On the Start Page, you can choose which spot youd like to have empty to begin. The difficulty of winning the games varies quite a bit depending on this choice.
