

Chihuahua Nine-Letter Word Puzzles Volume 7

Another 100 nine-letter word-finding puzzles - the 7th volume of the series. See how many words of at least four letters you can make from an array of nine letters. The letter in the middle must be used in every word, and at least one word can be made that uses all the letters. Each puzzle has targets for how many words you find. Good, Better and Best can be reached with well-known words. Two higher target levels require some more obscure words. You decide which target to aim for. All possible words are listed in the Solution section. Derived from the popular Chihuahua Puzzle website.
