

Hands-On Microsoft Windows Server 2003 Active Directory (Networking)

Hands-on Microsoft Windows Server 2003 Active Directory prepares students for the real-world challenges of planning, designing, and implementing Windows Server 2003 Active Directory services. Hands-On activities are interspersed throughout each chapter so there is the right balance of conceptual material and activities. Case projects at the end of each chapter allow students to take on the role of a Windows Server 2003 administrator, making decisions and troubleshooting real-life problems.
