

## Contemporary Human Geography (2nd Edition)

Contemporary Human Geography is a beautifully crafted, modular springboard into essential human and cultural geography concepts, designed for the contemporary geography student. This brief, innovative text explores current human geography in the bold visual style that distinguishes Dorling Kindersley (DK) publications. Topics within each chapter are organized into modular, self-contained, two-page spreads. Together with the graphics, Rubenstein's efficient writing engages students, presenting information clearly without sacrificing the high-quality geography content essential to students and instructors.
