

## Crazy

A compelling novel in verse about mental illness Laura is a typical fifteen-year-old growing up in the 1960s, navigating her way through classes, friendships, and even a new romance. But shes carrying around a secret: her mother is suffering from a mental illness. No one in Lauras family will talk about her mothers past hospitalizations or increasingly erratic behavior, and Laura is confused and frightened. Laura finds some refuge in art, but when her mother suffers a breakdown after taking painting back up again herself, even art ceases to provide much comfort. Eloquent and compelling, this powerful novel-in-verse tackles complex themes in a way that will have readers rooting for Laura to find the courage to get the answers she needs.
