

Criminal Macabre: The Eyes of Frankenstein

With ghouls dying all around him and the mystery of his own violent illness racking his body and mind, occult detective Cal McDonald takes on a new case from an old friend--Frankenstein's monster. To solve the case, Cal seeks help from a man billed as the world's foremost authority on the supernatural. Cal must trust this wealthy entertainer to save his friends and cure his illness. But that trust leads down a dangerous path that will leave Cal changed forever. Steve Niles, the original creator of the comics series that spawned the film *30 Days of Night*, returns with another of his ongoing series, *Criminal Macabre*, and the psychic detective, Cal McDonald.
