

Tarot Revelations

Tarot Revelations is an analysis of the mysterious philosophy in the ancient cards that became modern playing cards. Citing Dante, C.G.Jung, and early Gnostics and alchemists, Campbell and Roberts reveal a path that has spiritual meaning for everyone. Writing in collaboration with Richard Roberts, Joseph Campbell stated, We have come to revelations of a grandiose poetic vision of Universal Man that has been for centuries the inspiration of saints and sinners, sages and fools, in kaleidoscopic transformations. According to Richard Roberts, In the 22 cards comprising the Major Arcana, we have a genuine document of the souls initiation into higher consciousness. As such the Major Arcana may be interpreted as a Western Book of the Dead. For two centuries now, the human spirit has been in revolt against the world of the Gradgrinds, and their obsession with facts, hard facts. The Romanticism of the 19th century was one long shout of defiance. The Romantics exaggerated the problem out of weakness and a sense of vulnerability. And people like Dick Roberts and Joseph Campbell are restoring it to perspective, and bringing about a reconciliation that is based on insight and strength. If they succeed, the intellectual perspective of the 21st century could be more exciting than anything we can imagine. -- Colin Wilson
