Students learn best when they see concepts applied to examples from their everyday lives. This new edition of Economics Today covers leading-edge issues while lowering barriers to student learning. The text relentlessly pursues the fundamental objective of showing students how economics is front and center in their own lives while providing them with many ways to evaluate their understanding of key concepts covered in each chapter. Each

chapter begins and ends with an Issues and Applications feature, which introduces a timely issue in the chapter opener and analyzes the issue using the economic tools learned in that chapter at the end. This text is also available with MyEconLab, which includes assessment questions that tie to these Issues and Applications, as well as ABC News video clips. With MyEconLab, students can continue working problems online and receive personalized tutorial resources. Visit MyEconLab for more information.
