

## A to Z of Scientists in Space and Astronomy (Notable Scientists)

Designed for high school through early college students, *A to Z of Scientists in Space and Astronomy* is an ideal reference to notable male and female scientists in the field of space and astronomy, from antiquity to the present. Containing more than 160 entries and 50 black-and-white photographs, the authors emphasize the scientists' contributions to the field as well as his or her effect on scientists who have followed. The book is organized with a general introduction that explains who is in the book and why; a list of entries; the entries themselves; indexes by field of specialization, nationality, subject area, and chronology; a bibliography; and an index.
