

Geography - University of Arizona Special Edition (Human Geography: Landscapes of Human Activities 11th Ed.)

Special Edition for the University of Arizona. Fellmann et. al.s Human Geography introduces students to the scope and excitement of human geography and its relevance to their daily lives. The 11th edition continues to convey the breadth of human geography and to provide insight into the nature and intellectual challenges of the field of geography itself. The authors pay special attention to gender issues and assume no previous experience in geography on the part of the students.
