

## Johnny Mackintosh and the Spirit of London (Johnny Mackintosh, Johnny Mackintosh Trilogy)

Its 64,874,261 years behind Galactic Standard Time in outer space and 13-year-old Johnny is a long way from his childrens home When Johnnys talking computer Kovac detects an extraterrestrial signal, his life is set to change for ever. Before that, stuck in his childrens home with the nasty cook Mr. Wilkins watching his every move, soccer had been his only escape. But things start happening around him that Johnny doesnt understand, forcing him to ask the questions Why is his mother, who is on life support in a hospital for the criminally insane, being guarded by sinister-looking men? and Why was a journalist murdered shortly after Johnny talked to him? When Johnny finds out he has a sister, he decides to run away to find her. His search for answers takes him farther from home than he could ever have imagined, on a spectacular journey through time and space. Along the way he visits new worlds, prehistoric Earth, and the lost city of Atlantis before finally discovering the truth about his parents and who he really is.
