

The Jesuits in North America in the Sventeenth Century, Vol. 1 of 2: France and England in North America, Part Second (Classic Reprint)

Excerpt from The Jesuits in North America in the Sventeenth Century, Vol. 1 of 2: France and England in North America, Part Second

Few passages of history are more striking than those which record the efforts of the earlier French Jesuits to convert the Indians. Full as they are of dramatic and philosophic interest, bearing strongly on the political destinies of America, and closely involved with the history of its native population, it is wonderful that they have been left so long in obscurity. While the infant colonies of England still clung feebly to the shores of the Atlantic, events deeply ominous to their future were ill progress, unknown to them, in the very heart of the continent. It will be seen, in the sequel of this volume, that civil and religious liberty found strange allies in this Western World. The sources of information concerning the early Jesuits of New France are very copious. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
