

Science and Health with Key to the Scriptures (Russian/English Edition)

This book is in both English and Russian. The different languages are laid out side by side on opposite pages. ---- This is the textbook for Christian Scientists. It is the central text of the Christian Science religion. -----Science and Health posits a wholly metaphysical view of Christianity in which sin, disease, and death are not of God, and are therefore not real. Further, it suggests that by striving toward a spiritual understanding of the world as God's perfect creation, these false beliefs are shed from one's experience.
