

Plague (Gone Book 4)

Its been eight months since all the adults disappeared. Gone. Theyve survived hunger. Theyve survived lies. But the stakes keep rising, and the dystopian horror keeps building in Plague, Michael Grants fourth book in the New York Times bestselling Gone series. A highly contagious fatal illness is spreading at an alarming rate, while sinister, predatory insects terrorize Perdido Beach. Sam, Astrid, Diana, and Caine are plagued by a growing doubt that theyll escape or even survive life in the FAYZ. With so much turmoil surrounding them, what desperate choices will they make when it comes to saving themselves and those they love?
