

## Hotel Europa: Italia : Business Italian for Beginners

Set in the conference office of a hotel, this Italian language coursebook offers a wide range of typical, realistic business situations. In ten units, each focusing on four dialogues, learners are introduced to relevant business vocabulary and structures as they follow the progress of a company presentation. Practical exercises are based around the dialogues to test comprehension and consolidate key points. There are also regular checklists to chart progress, and a comprehensive grammar section and glossary are provided at the back of the book for quick reference. The book is part of the Hotel Europa series of business language courses for beginners designed to take the learner to LCCI Threshold level. It leads into the established Marche Conclu series and Italian realia are used throughout.
