

The Ultimate Guide to Fishing

On these pages we present you some of the basic techniques of fishing. Some we have covered in detail and for others we just explained some of the basic facts (fly fishing). The basic division of fishing is between the sport fishing and commercial fishing. Sport fishing still can be roughly divided into: fishing by waiting and fishing on the move. Each of these two ways can be adapted to the kit, the water, the fish species and other circumstances that govern fishing on the fishing site.
