

ICE Manual of Structural Design: Buildings (Ice Manuals)

Eurocode 0 is considered the primary document in the Eurocode suite and establishes for the structural Eurocodes the principles and requirements for safety and serviceability of structures. More importantly, EN 1990 must be applied whenever the Eurocodes 1 to 9 are used. This new edition includes: PSI factors for Execution (Buildings), Additional examples on EQU, STR and GEO; and gamma_g and gamma_{inf}, Coverage of British national annex, references to secondary guidance (e.g. Designers Guide on Actions on Bridges) on EN 1990: Annex AAA(2)
