

Darkside Zodiac: Sagittarius

Born under a bad sign? Of course you were, we all were. In this case Sagittarius the Archer, the zodiacs tactfree adrenalin junkie. Everyone knows their bright starry self, but the Darkside Zodiac reveals what you are like on the bad days. Like you care, Sagittarius; shrugging off the bad stuff is a just another great upper arm work out for you, and anyway it will all come out in the dirty washing. What can you expect in this short, yet vitriol-packed e-volume? Prepare to break bad. Heres the checklist (partial - you think we give this stuff away?) * Bitch factor? You got it. Likewise* Annoying habits * Deadly sin of choice * Your love life. Hah. * Your criminal career * Your road ragePlus clever charts showing just how incompatible you are with everybody else in every conceivable aspect of life. Of course its not your fault. It never is. Find out which planet/s is/are responsible for your cosmic awfulness, and blame it/them. And you get to find out who famously shares your sector of the darkness, just so you have a role model if you begin to stray towards the light. Until now only available to the discerning in tree-based form, the darkside has gone e-side so you can read all about your dark self without having to lift a finger to turn the page. Buy one for yourself (and wallow in delicious shame) or, even better, for your friends/enemies/frenemies/office nemesis and send it to them anonymously. That would be very darkside.
