

Claicira: The World Where Magic Dances Lightly on Wings of Hope

Arllin thought she lost everything. She left her duties, powers, and sisters behind to escape. Then she met the one thing she didn't know she was looking for, the one thing that would turn her world right side up and help her back. She met Nikk, and the devilishly handsome man did what she thought impossible. They faced her past, then their own very uncertain future. What will become of their world? What will become of the love that is proving to be the savior of their entire world, if they let it?
