

Dubliners (Macmillans student series)

Dubliners is a landmark in modern literature, and one of the twentieth century's finest collections of short stories. In its remarkable portrait of a city and its people, it dramatises ordinary life in the modern world. Together, the stories form one interwoven tapestry which provides a rich and subtle picture of the struggles of men and women to rise above the constraints of their everyday lives. Cambridge Literature is a series of study texts which presents writing in the English-speaking world from the 16th century up to the present day. The series includes novels, drama, short stories, poetry, essays and other types of non-fiction. Each edition has the complete text with an appropriate glossary. The student will find in each volume a helpful introduction and a full section of resource notes encouraging active and imaginative study methods.
