

## Lights and Sirens

The past couple years have been a real bitch for trauma nurse, Lucas Harris. Hed given up everything to be in a relationship with a man he loved, only to find out the feelings werent mutual. Hurt and betrayed, Lucas leaves everything behind and moves to Flint, Michigan to start over again. After a night of too many drinks, Lucas gets up-close-and-personal with paramedic Matt Shaw. The only problem is while Matt may be the sexiest medic in Flint, hes also as straight as they come. The last thing Lucas wants is to be someones dirty little secret again, but at the same time he cant deny his growing attraction to Matt. When a near fatal incident forces the men to face their feelings for one another, Lucas knows things will never be the same again. Will his heart be able to survive the outcome?
