

Gasp (Visions Book 3)

The visions aren't stopping, and neither is the danger in this series conclusion from the New York Times bestselling author of the Wake trilogy. After narrowly surviving two harrowing tragedies, Jules now fully understands the importance of the visions that she and those around her are experiencing. She's convinced that if the vision curse passed from her to Sawyer after she saved him, then it must now have passed from Sawyer to one of the people he saved. That means it's up to Jules to figure out which of the school shooting survivors is now suffering from visions of another crisis. And once she realizes who it is, she has to convince that survivor that this isn't all crazy—that the images are of something real. Something imminent. As the danger escalates in this conclusion to the Visions series, Jules wonders if she'll finally find out why and how this is happening before it's too late to prevent disaster.
