

Mathsworks for the CSF II Book 5 (Cambridge Primary Maths Australia)

Mathsworks 5 covers the work requirements specified under the Mathematics CSF II for Grade 5 in Victorian schools. The chapters of the book follow the CSF strands of Space, Number, Measurement, and Chance and Data. Each chapter has at least one activity for each of the indicators detailed in the CSF II. The requirements of the Reasoning and Strategies strand are addressed as interludes or in the context of other activities. Each activity carries a CSF II identification code for easy recording and reporting. A student record sheet has been included to plot student progress.
