

Audel Carpenters and Builders Millwork, Power Tools, and Painting

How to achieve a perfect finish You already know that the building isnt finished just because the walls are up and the roof is on. Interior details--flooring, stairs, trimwork, cabinets, fireplaces, and painting--finish the project and give it character. This guide clearly explains each step, discusses the tools involved, and even examines insulation, termite protection, maintenance, and how to set up a workshop that makes it all easier. Determine coverage rates for various paints and make the selection that fits your project Explore the advantages of paint spray guns and high-pressure water treatments Analyze types of insulation and choose one that provides peak efficiency Learn the pros and cons of different types of chimneys and prefabricated fireplaces Design and plan a workshop with the equipment and machinery youll need for finishing Take advantage of an extensive glossary of carpentry and building terms
