Sara has a life she should be happy with. Blake appears to have the life anyone would be happy with. But should and would just aren't enough. Sara Chandler knows she should be happy with her life. Her best friend would even describe it as perfect. Sara has the perfect boyfriend, the perfect grades, the perfect family, and she's almost secured her spot as the perfect editor of *The Gazette*, her school newspaper. But what some view as perfect, Sara sees as boring and feels something is missing. She can't help but think her something missing might be in the form of a dark-eyed wrestler, Blake Brandon. Sara knows that her crush is just that, a crush. But when Sara finds Blake literally at her feet, Sara's perfect life flies out the window. Although Sara's new life in what must be an alternate reality appears to be absolutely wonderful, Sara is wary. And she has every right to be. Especially when she finds out what Blake has been hiding. *Skinniness is Next to Goddessness?* *Sara's Story* is the prequel in a YA contemporary series with many romantic elements.
