

The Perfume (Point)

An enticing new perfume has a deadly bite
When fifteen-year-old Dove Daniels
friends discover the new perfume called
Venom, they become infatuated. They have
Obsession and Poison; now they simply
must have Venom. When they discover its
available at Dry Ice, the coolest store in the
local mall, they rush over after school. But
to Dove, Venom seems inexplicably
terrifying, as does the store that carries it.
If she breathes in its potent scent, she is sure
something terrible will happen. At first
whiff, she senses something primitive and
dark. Once shes inhaled the scent, she
begins to feel something . . . different . . .
and her heart beats in double time. What
has Venoms bite awakened inside her?
This ebook features an illustrated biography of
