

Diary of a Rockers Kid (D.O.R.K Book 1)

Madison Daleys father has concealed the truth from her for seventeen years. Raised on a Kentucky farm, Madison is stunned when a conversational slip reveals her father Michael is a famous 90s rock star known as the Grim Weeper. Michael left the spotlight and his mansion behind when Madison was dropped off on his doorstep by a woman in a black mask. A dark past is revealed, and the only thing Madison isn't allowed to know is her mother's name. The answers Madison needs can only be found in Beverly Hills. Though she does hope to persuade her dad to return to the stage, Madison's real mission is to discover the identity of her mother. But she is slightly distracted—literally by the boy next door. Giovanni Abates father is an action film star, his stepdad is a major designer, and Gio has his own claim to fame. Madison catches the handsome, young Italian actor's eye, and their mutual attraction makes for a hotter summer than she ever could have imagined. Madison hasn't set foot in California since infancy, but a lot of people are certain she has. After Madison has a makeover, people are sure they've seen her somewhere before, and she is extremely curious about the identity of her supposed doppelganger. As she looks into this strange situation, she's unaware that Gio is hiding a potentially devastating secret. Could finding the answers she seeks change Madison's life forever? Or will it just lead to more questions to fill the Diary of a Rockers Kid.
