All Three Complete Novels in One Boxed Set Welcome to the world of the Summoners. Gods, war, betrayal, passion...

Get the series readers are calling: One of the best series I have read in a long time. Its different and exhilarating! Brilliant. It sucked me in. Only thing I didnt like is that it ended. But you dont have to take their word for it, read Summoners today and decide for yourself. From Minor Gods: Book One She was the chosen one... Until she wasnt. Josie Day has spent her life training to lead the Core--summoners who use ancient masks to channel the elemental powers of the gods. But when her mother is murdered by a mysterious Earth Goddess, the power meant to be Josies passes to her sister instead. Worse, the Earth Goddess escapes. Now, Josie must prepare her sister to lead the fractious Core. Except her sister would rather be hanging at the mall with her too-perfect boyfriend. And, in truth, Josie would rather be hunting down the Goddess. When the Goddess returns and attacks, a shadowy Fire God comes to the rescue. But until Josie knows who is behind the mask, she isnt sure she wants his help or the heat igniting between them. With the Goddess plotting a war against humanity, Josie has to accept what shes lost if shes going to save what she has left. Read Summoners: The Complete Series today.
