

The 13th Clock

I can slow down time? Is that what you're saying? Yes, Sarah. That's what I'm saying. You're the child of a Clock. You carry your mother's abilities. Sarah Tuesday, her father, and little brother Rex are a team of thieves, swiping artifacts from museums, and returning them to the countries they came from. But when their father is taken from them, Sarah and Rex go on the run from the Council of Clocks and their powerful Chrona guards. In the midst of it all, Sarah will have to learn to create and control bubbles of shifted time. Unrest within the Council of Clocks, as well as the emergence of the Digitals, an underground faction that has begun to fight back against the Clocks' domination, will make her job that much more difficult. This is the first 13th Clock novel, but Sarah's adventures began in *The 3rd Caper* and *Sarah Tuesday on the Run*. You can help find Sarah Tuesday by visiting whereisSarahTuesday.com.
