

## BLACK BEAR LAKE

Adam Craig, a forty year-old stock trader in Chicago, finds his marriage teetering on the rocks and his life at a standstill. Desperate and on the edge of personal collapse, Adam takes the advice of a therapist and travels to his childhood family compound on Black Bear Lake with hopes of making peace with his past. Stepping onto the northern Wisconsin property, he relives the painful memories of the summer of 1983, his last summer at the lake. In August 1983, a self-conscious fifteen year-old Adam carries a world of worry on his shoulders as he arrives at Black Bear Lake for a month long family reunion. Between anger and fear of mothers declining health as she quietly battles a quickly spreading cancer and his cherished cousins depression over her parents bitter divorce, Adam is swept up in smothering familial love among the multiple generations and heartbreaking misunderstanding and betrayal. The arrival of a sensual but troublesome babysitter throws the delicate balance of his family into a tailspin. Blinded by his attraction to the newcomer, Adam fails to see his cousins desperate cries for help and the charged electrical current running through his familys hierarchy. Crushed in the middle of it all, Adam is forced to learn that theres a fine line between self-preservation and the strength of family blood, all the while unaware of the impending tragedy that will ultimately change his life forever.
