

## Guitar And Harmonica Method

The Guitar and Harmonica Method provides aspiring musicians with the basic tools and knowledge needed to play guitar and harmonica together, to be able to perform great songs with confidence and to gain a deeper musical understanding. Guitar instruction is introduced in the first section, harmonica instruction in the second. The third section utilizes music theory to bring the instruments together. Here the student gains the understanding of how to pick the correct key harmonica depending on the chords and style of a song, as well as learning which holes on the harmonica, blow or draw, match the notes of the chord on the guitar. Diagrams, examples and practice exercises reinforce the exciting information.
