

The Steam Punk Tarot: Wisdom from the Gods of the Machine

Steampunk is the fastest growing subculture around. It imagines a world in which steam is the main locomotive power driving submersibles, rockets and ships across the world. And it features Victoriana, time travel and adventure, all elements in this wonderful new tarot. The major archetypes are the Gods of the Machine, and the four suits are Airships, Engines, Submersibles and Leviathans. This interaction of energies offers wisdom and direction from an alternative reality, but still relevant to us today.
