

## Raising Hell: Straight Talk With Investigative Journalists

In recent years, a new wave of investigative journalists have become prominent. Some relish being politically incorrect (David Brock, author of *The Real Anita Hill*); others methodically shatter cultural icons (Douglas Frantzs expose of Washington insider Clark Clifford); and still others have revealed such horror as Cold War experimentation on unsuspecting citizens (Eileen Welsesomes Pulitzer Prize-winning stories). In their own words, these journalists and nine others (Tim Weiner, John Camp, Marjie Lundstrom, Gerald Posner, Sydney Schanberg, David Burnham, Bryon Acohido, Dan Moldea and Brian Ross) provide insight to their jobs and the role of investigative journalism in American society.
