

The Fourth Wish: The Art of Wishing: Book 2

Genies for the modern age, with passion, darkness, and heart. I loved it!--Tamora Pierce, author of Mastiff (praise for The Art of Wishing) Heres what Margo McKenna knows about genies: Shes seen Aladdin more times than she can count; shes found a magic genie ring and made her three allotted wishes; shes even fallen head over heels in love with Oliver, the cute genie whose life she saved by fighting off another genie. But none of this prepared her for the shock of becoming a genie herself. Everything Margos taken for granted--graduating high school, going to college, hating math, performing in the school musical, even being a girl--is in question. Just at a time when shes trying to figure out who she wants to be, Margo is forced to become whomever her master wants. But Margo is also coming into a power she never imagined shed have. How will she reconcile the two? And where will she and Oliver stand when shes done? Fans of Every Day and Anna and the French Kiss will love this romantic, magical, and surprising conclusion to The Art of Wishing.
