

Teach Your Child - 100 Words To Read, Write, Spell and Draw: Dyslexia Games Presents: 100 Words That Every Child Should Master By Age 10 - An Animal ... Books - By The Thinking Tree) (Volume 1)

Homeschooling curriculum for spelling and science in one fun book! This workbook is designed to be used by beginner readers, struggling readers and children with dyslexia. This is a delightful workbook for dyslexic students. This is the PERFECT little spelling book for any child that is hesitant in reading!! Its a super fun, smaller size that they can take anywhere with them. I read each poem 3-4 times with my 9 yr old and he shades in the spelling words, or colors them with each letter being a different color. He LOVES drawing out the habitat for the animals. Just in reading out the few poems, my son is reading them himself and has become more confident in his reading abilities. - Melba This book teaches children about 21 wild animals and introduces them to 100 words that they need to learn to spell by age 10. This book is perfect for dyslexic students because it uses art, logic and coloring to help them learn to spell several sight words that are hard for dyslexics students to remember. This book is created by Anna Brown and Sarah Janisse Brown - the author and developers of Dyslexia Games Therapy. A workbook, coloring book and activity book for teaching and homeschooling children with serious reading and spelling problems. Find all Anna & Sarahs Fun-Schooling Books at www.FunSchoolingBooks.com Anna is the author of the animal poems in this book and she the artist who created all the animals drawings. Anna is a 15 year old student with dyslexia who wants to help dyslexic children to learn to read, write and spell while having fun!
