

The Age of the Warrior: Selected Essays by Robert Fisk

Robert Fisk has amassed a massive and devoted global readership with his eloquent and far-ranging articles on international politics. Now, for the first time, his brave and incisive essays have been collected in a single volume that ranges in scope from the recent war in Lebanon to the rise of Hamas; from the invasion of Kuwait to the looting of Baghdad; from Americas imperial ambitions to the inescapable influence of the Treaty of Versailles. Taken together, these articles form an unparalleled account of our war-torn recent history.
