

The EU and Conflict Resolution: Promoting Peace in the Backyard (Routledge/UACES Contemporary European Studies)

Through the study of five ethno-political conflicts lying on or just beyond Europe's borders, this book analyzes the impact and effectiveness of EU foreign policy on conflict resolution. Conflict resolution features strongly as an objective of the European Union's foreign policy. In promoting this aim, the EU's geographical focus has rested primarily in its beleaguered backyard to the south and to the east. Taking a strong comparative approach, Nathalie Tocci explores the principal determinants of conflict dynamics in Cyprus, Turkey, Serbia-Montenegro, Israel-Palestine and Georgia in order to assess the impact of EU contractual ties on them. The volume includes topical analysis based on first-hand experience, in-depth interviews with all the relevant actors and photography in ongoing conflict areas in the Middle East, the Eastern Mediterranean, the Balkans and the Caucasus. This revealing study shows that the gap between EU potential and effectiveness often rests in the specific manner in which the EU collectively chooses to conduct its contractual relations. The EU and Conflict Resolution will be of interest to all readers who wish to acquire an excellent understanding of the EU's impact on conflict contexts and will appeal to scholars of European politics, security studies and conflict resolution.
