

The Fast Metabolism Diet: Eat More Food and Lose More Weight

Haylie Pomroy has helped thousands of clients lose up to 20 pounds in just 4 weeks - all through the fat-burning power of food. Hailed as the metabolism guru, Haylie reminds us that food is not the enemy, its medicine needed to rev up your sluggish, broken-down metabolism and turn your body into a fat-burning furnace. On this plan you're going to eat a lot. You're going to eat three full meals and at least two snacks a day - and you're still going to lose weight. What you're not going to do is count a single calorie or fat gram. You're not going to ban entire food groups. You're not going to go carb-free or vegan or go cold turkey on the foods you love. Instead, you're going to rotate what you're eating throughout each week according to a simple and proven plan carefully designed to induce precise physiological changes that will set your metabolism on fire.

Phase I (Monday-Tuesday): Lots of carbs and fruits
Phase II (Wednesday-Thursday): Lots of proteins and veggies
Phase III (Friday-Sunday): All of the above, plus healthy fats and oils

By keeping your metabolism guessing in this specific and deliberate way, you'll get it working faster. This isn't just a theory, it's the results-based product of Haylie Pomroy's successful programs. It's worked for celebrities, for athletes, and for people with chronic illnesses who need to lose weight, doctors orders. Now it's going to work for you. All thanks to the miraculous power of real, delicious, satisfying food! Plus, by switching up what you're eating every few days, you'll get to enjoy a greater variety of foods, so your palate will never feel bored or deprived. Complete with four weeks of meal plans and over 50 recipes - including vegetarian, organic, and gluten-free options - this is the
