

The Magic Wand and Other Bright Experiments on Light and Color (The Exploratorium Science Snackbook Series)

Bring the fun of a world-famous science museum into your own classroom or home!

THE EXPLORATORIUM SCIENCE SNACKBOOK SERIES Clear, concise, and visual the best assortment of wonder-filled ideas I have seen. A must-have. Paul Hewitt, author of *Conceptual Physics* Almost as much fun as exploring the Exploratorium, which, of course, is a googolplex of fun. Jearl Walker, author of *The Flying Circus of Physics*, with *Answers Now* you can do your own version of 25 Exploratorium experiments on light and color. All you need is a little curiosity, a few simple materials . . . and this book. Each experiment is easy to do, fully illustrated, and loaded with advice, ideas, helpful hints, and eye-popping discoveries. Learn why the sky is blue but sunsets are red. Make strange, beautiful shapes appear with mirrors, tape, and cardboard. Through these and other projects in *The Magic Wand*, learn the science behind the mystery of light and color. San Francisco's EXPLORATORIUM, source of the best-selling *Explorabook*, hosts half a million visitors each year. Also available in *The Exploratorium Science Snackbook Series: The Cheshire Cat and Other Eye-Popping Experiments on How We See the World*
