

The Young Inheritors: A Portrait of Israel's Children

The Young Inheritors portrays the diversity and complexity of Israel's youth. Through the eloquent writing of Yehuda Avner and striking photographs by Gemma Levine, we meet Hassidic boys with shaved heads and side-curls; Russian immigrants at absorption centers; Druze children leading the family donkey to market; children playing in bomb shelters and in the shadows of ancient arches. The Young Inheritors presents a loving portrait of Israel's children, who carry forward twenty centuries of history as they build a new nation.
