

Danny

Danny Marinas new step-father takes him to the laser tag stadium, the movies, the go-kart track. He and his mother now have a new house and more money. Then Danny finds the cameras--in the living room, his bedroom, the shower. Which leads him to uncover the secret web site, the one devoted to him and his step-brother Eric. Dannels Mom doesnt believe him--doesnt want to believe him. Faced with the unthinkable as his stepdad brings home strangers, Danny and Eric hop a bus for Florida. Frightened, and only with each other for support, they flee to Aquapura, a crappy, decrepit resort town. But the streets of Aquapura have dangers of their own. A grinning hotel owner named Lucian ropes the boys into a prostitution ring, pimping them out to traveling businessmen who flash enough cash. The work crushes Dannels body and threatens to steal his soul. As an escape, Danny fills his notebook with a strange and secret story. He spins the tale of Ganymede, a teenaged boy from ancient Greece. Zeus, the king of gods himself, snatches Ganymede up to Mount Olympus, where he is pulled into a web of intrigue and adventure that threatens the very gods. As his life under Lucians thumb worsens, Danny escapes deeper into Ganymedes fictional life. Except the more Danny writes about Ganymede, the more it becomes clear hes writing about himself. And over time, Ganymedes life crosses Dannels in strange and impossible ways. Danny needs to use Ganymedes strength to fight back and create a better life for himself and for Eric. But can a teenager use the power of a god?
