REVIEWS I really liked Vegas Pros Best Racing Angles, and Ive already used it several times, making far more than the books very reasonable price already. ... the angles it shows you really do work. I found the chapter on How to bet them to be great. It clearly showed me how I should be betting, and why buying tickets on favorites was a losing game. And I can state unequivocally that his information does work, because I have used it now for several months, and made a profit using his 3 Angles. Makes me money. I just use the 3 Angles the book shows. Not complicated at all, really. Oh boy! A book on race betting that really works. Ive got about a hundred books on that subject. This one, the Vegas Pros Best Racing Angles, beats them all. Good solid, useable information.

All the material in that book was written by someone who knows what he was talking about, and for me that makes Vegas Pros Best Racing Angles a real winner.

When I went to the track before, or even online, I would bet every race. I thought, if you dont have a bet down you cant win. Great theory, but it just costed me a lot of green. So now I just follow the rules laid out in Vegas Pros Best Racing Angles and not try to reinvent the wheel. It works. Im definitely ahead since I have done that.
