

## Inteligen?a animala (Romansh Edition)

Te-ai intrebat vreodata cum ar fi sa fii un pe?te? Dar un liliac, o albina sau un tigru? Oare au ei ganduri ?i emo?ii ca ale noastre? Cu siguran?a, animalele gandesc ?i simt mult mai mult decat credem noi. In plus, sunt capabile de lucruri uimitoare, pe care noi le descoperim abia acum. De exemplu, furnicile se inva?a una pe alta drumul spre casa, pasarile-gradinar folosesc perspectiva in construirea cuibului, cainii pot inva?a sute de cuvinte, ciorile ?i porumbeii pot recunoa?te ?i deosebi chipurile umane, co?ofenele se pot recunoa?te in oglinda, iar lista ar putea continua la nesfar?it. Nu numai maimu?ele antropoide, elefan?ii ?i delfinii sunt specii inteligente, a?a cum se credea pana de curand. Ultimele descoperiri ale cercetatorilor arata ca nu trebuie sa ai un creier mare pentru a fi de?tept. Inteligen?a animala ne poarta in lumea speciilor de?tepte, de la papagali la cimpanzei, facandu-ne cuno?tin?a cu cercetatori simpatici ?i descoperirile lor incredibile. Scrisa cu umor ?i inteligen?a, cartea Virginiei Morell ne demonstreaza ca animalele (?i mintea lor) merita cunoscute, respectate ?i iubite.
